Dear Colleague:

The National Aeronautics and Space Administration (NASA) has re-opened the Announcement of Opportunity (AO) for the Hubble Space Telescope (HST) Advanced Camera (AC). Only Category A proposals (see AO-94-OSS-01) are now solicited. The new due date for proposals is November 1, 1994. Letters of intent will be due by September 26, 1994. The pre-proposal conference will be held at the Goddard Space Flight Center on October 3, 1994 (more information on this meeting may be obtained from Dr. Wayne Sours at 301-286-7451). NASA intends to make a selection by early January 1995, and commence Phase B activities by March 1, 1995. All other milestones beyond Phase B remain unchanged as described in the AO (e.g., the HST Third Servicing Mission is scheduled for November 1999).

NASA is seeking proposals that range from 25 - 40 million dollars for the AC over the period of fiscal year 1995 through 2000. NASA is prepared to consider proposals that exceed 25 million dollars on the basis of substantial increases in scientific return, however, no proposals over 40 million dollars will be considered. As the AO states, total cost will be equal in priority to science and technical merit as selection criteria. The proposed cost should include reserves. The cost per fiscal year is to be determined by the proposer. For further information about this opportunity, contact the HST Program Scientist, Dr. Edward J. Weiler, at 202-358-0341 (email = eweiler@gm.ossa.hq.nasa.gov).

Sincerely,

Wesley T. Huntress, Jr.

Space Science
